Category	Parenting

Administer your questionnaires online

Send your patient a link: they answer from their phone or computer, and you receive the scored results by email.

View the questionnaire on mentaal.org ›

Scoring & interpretation

BASC-3 results are interpreted through standardized profiles that take into account the clinical scales, the content scales and the composite indexes. Each response is scored and converted into T-scores, which makes it possible to identify atypical areas of functioning.

Usage

This tool isn't available on Mentaal. To use this questionnaire in your practice, you need a valid license. We invite you to send it directly from the publisher's website.

★★★★★

“It's a real plus in sessions to assess the patient, and a very rich basis for discussion to deepen the clinical work.”

 Elodie C. - CBT Psychologist
