

Test of Attentional Performance (TAP)

The Test of Attentional Performance (TAP) is designed to assess various aspects of attention, including sustained, selective, and divided attention, as well as attentional flexibility, through a series of computerized tasks.

Number of questions	12 questions
Estimated duration	60 minutes
Language	English
Original name	Test of Attentional Performance
Target audience	Adults and children
Authors	Zimmermann P., Fimm B. (1994)
Category	General

Scoring & interpretation

Each TAP subtest has its own scoring system, and the results are often compared with age- and sex-based norms to determine the individual's attentional performance.
